50X1-HUM

1. A military installation was under construction, in February 1958, about one kilometer north of Kremikovtsi on the western and northern slopes of the hill on which the Kremikovtsi Monastery is located. A pine woods on the west side partially hides some depot type buildings; other buildings, still under construction, are visible from the summit of the hill. A good paved road leads from the site for 12 kilometers and connects to the Sofia-Botevgrad road. Its use is still unknown. It could possibly be an engineer depot.
2. The following is a sketch showing the location of the above mentioned installation:
